

Mixed Document Test

Page 1 is a digital page with real, selectable text.

Adaptive routing should extract it natively with PyMuPDF.

Page 2 is an image-only scan and must be sent to OCR.

Quarterly Operations Memo

This memo summarizes the operational results.

Revenue increased by 12 percent.

Customer support tickets decreased by 8 percent.

Key Actions

1. Hire two backend engineers
2. Migrate the billing service
3. Review vendor contracts

Conclusion

Page 3 is digital again. The routing decision is made per page, not per file.
